This charming, rustic home offers an open floor plan and has been well maintained. This is perfect for someone who wants to escape the rat race and get back to a more genteel way of life. It's on a very quiet road in the country, but not too far out from town. Inside, you will find a bright and cheerful home, with lots of wood to give the home a warmth, and coziness you can't get with sheetrock. The home has comfortable layout with a wood burning stove, wide plank wood floors. Also offers a Florida room, and a Bonus room currently being used as a home theater. Outside you will find 3 acres of unrestricted property, with plenty of space for all the toys, with a huge 40x40 garage, a workshop, garden, chicken coop, and a small stream. This home is sure to provide many years of good times in the mountains to last them the rest of their lives, just as it has for the original owners. When you move to these Foothills, and the Table Rock area, you are stepping back to a more relaxing time, where the unbounded beauty of nature, and Gods creations are all around, where neighbors wave and greet you with a smile. It's a different way of life here, one where people come, and stay forever.
